

WetlandLink - World Wetlands Day Issue 2010

Celebrate World Wetlands Day 2010

Tuesday 2nd February

"Wetlands, Biodiversity and Climate Change"

Worlds Wetlands Day is an annual celebration on the 2nd of February to mark the the date of the adoption of the Convention on Wetlands on 2 February 1971.

The international theme for World Wetlands Day 2010 is "**Wetlands, Biodiversity, and Climate Change**" and its focus is on **Caring for our wetlands – an answer to climate change**. This was in recognition of the likely impact of climate change on wetland ecosystems, and importantly, about the role of wetlands in climate change mitigation and adaptation.

To help you find an event near you a list has been started on the Wetland Wiki. This years celebrations range from art, world music, dog walking breakfast, rocky shore tours, to wetland walks and field days, canoeing and more.

You can view this list by clicking on the link below:
